

## Declaration of Performance

in accordance with Construction Products Regulation No. 305/2011

For: **fixed, vertical road traffic sign** according to European standard DIN EN 12899-1

Manufacturer: **Bremicker Verkehrstechnik GmbH**  
Am Öferl 37-43  
82362 Weilheim i.OB  
Tel. +49-0881-642-0  
Fax +49-0881-642-201  
E-Mail: info@bremicker-vt.de

Intended use: **as fixed, vertical road traffic sign**

Assessment and verification of performance: **system 1**

The notified body StrAus-Zert (NB 0913) has carried out the initial type test of the relevant features of the product, the initial inspection of the factory and the factory production control of the producer, the continuous surveillance, assessment and approval of the factory production control, in accordance with system 1, and has issued the certificate of constancy of performance of the product.

### No.: 0913-CPD-2009/06

Details of the essential features and performance in accordance with DIN EN 12899-1:

design of image medium	as stated in delivery note
dimension	as stated in delivery note
retroreflector class	as stated in delivery note
deformation acc. to TLP-VZ at WL2	resulting from bending force TDB4 resulting from torsion TDT0

Road traffic signs with changeable image content are individually designed to withstand the wind class as stipulated by the client.

Conditions for installation:

Installation of fixed, vertical road traffic signs complies with DIN EN 12899-1 if, at the same time, the IVZ standard is taken into account. If component parts from other suppliers are used, these suppliers must have certification on the same basis and the components must have been proven to be in conformity with the IVZ standard.

The performance of the product is in conformity with the performance as declared.

Weilheim, 1 December, 2016

  
Felix Schaumberg  
Managing Director  
Bremicker Verkehrstechnik GmbH

## Declaration of Performance

Am Öferl 37-43  
82362 Weilheim i.OB  
Tel. +49-0881-642-0  
Fax +49-0881-642-201  
E-Mail: info@bremicker-vt.de

Intended use: **as sign support for fixed, vertical road traffic sign**

Assessment and verification of performance: **system 1**

The notified body StrAus-Zert (NB 0913) has carried out the initial type test of the relevant features of the product, the initial inspection of the factory and the factory production control of the producer, the continuous surveillance, assessment and approval of the factory production control, in accordance with system 1, and has issued the certificate of constancy of performance of the product.

### Nr.: 0913-CPD-2009/22

Details of the essential features and performances in accordance with DIN EN 12899-1:

deformation acc. TLP-VZ at WL2	resulting from torsion TDT0 resulting from bending force for steel materials TDB4 for aluminium materials TDB5
--------------------------------	--

Road traffic signs with changeable image content are individually designed to withstand the wind class as stipulated by the client.

Conditions for installation:

Use of the sign stand for the fixed, vertical road traffic sign complies with DIN EN 12899-1 if, at the same time, the IVZ standard is taken into account. If component parts from other suppliers are used, these suppliers must have certification on the same basis and the components must have been proven to be in conformity with the IVZ standard.

The client is responsible for ascertaining conformity of components of which the client has specified the design, according to appendix ZA, table ZA.4 of DIN EN 12899-1.

The performance of the product is in conformity with the performance as declared.
